This brochure provides information about the qualifications and business practices of Mezzasalma Advisors. If you have any questions about the contents of this brochure, please contact us at 732-842-1120 or [jdmezz@aol.com](mailto:jdmezz@aol.com). The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Additional information about Mezzasalma Advisors also is available on the SEC's website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov). You can search this site by a unique identifying number, known as a CRD number. Our firm's CRD number is 129045.

## **Item 2    Material Changes**

The SEC adopted "Amendments to Form ADV" in July, 2010. This Firm Brochure, dated 02/09/2011, is our new disclosure document prepared according to the SEC's new requirements and rules. As a state-registered investment adviser, our firm is required to comply with the new reporting and filing requirements. As you will see, this document is a narrative that is substantially different in form and content, and includes some new information that we were not previously required to disclose.

After our initial filing of this Brochure, this Item will be used to provide our clients with a summary of new and/or updated information. We will inform you of the revision(s) based on the nature of the updated information.

Consistent with the new rules, we will ensure that you receive a summary of any material changes to this and subsequent Brochures within 120 days of the close of our business' fiscal year. Furthermore, we will provide you with other interim disclosures about material changes as necessary.

## **Item 4    Advisory Business**

John D Mezzasalma is a state-registered investment adviser with its principal place of business located in New Jersey. John D Mezzasalma began conducting business in 1996.

Listed below are the firm's principal shareholders (i.e., those individuals and/or entities controlling 25% or more of this company).

- John Douglas Mezzasalma, CPA, CFP®

Mezzasalma Advisors offers the following advisory services to our clients:

### **INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT**

Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary or non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Foreign issuers
- Warrants
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposit
- Municipal securities

- Mutual fund shares
- United States governmental securities
- Options contracts on securities
- Interests in partnerships investing in real estate
- Interests in partnerships investing in oil and gas interests

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

### **AMOUNT OF MANAGED ASSETS**

As of 12/31/2010, we were actively managing \$16,648,124 of clients' assets on a discretionary basis plus \$3,159,666 of clients' assets on a non-discretionary basis.

## **Item 5 Fees and Compensation**

### **INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT FEES**

Our annual fees for Investment Supervisory Services are based upon a percentage of assets under management and generally range from 0.50% to 2.00%.

The annualized fee for Investment Supervisory Services are charged as a percentage of assets under management, according to the following schedule:

**BASIC FEE SCHEDULE:** Mezzasalma Advisors may charge a Quarterly fee as follows: 1/2% of asset value up to \$500,000; 3/8% of asset value over \$500,000 but less than \$1,000,000 1/4% of asset value over \$1,000,000. For Mutual Funds and ETFs the client agrees to compensate the Advisor a Quarterly fee as follows: 1/4% of asset value up to \$1,000,000, 5/32% of asset value over \$1,000,000. (\$50 Annual Minimum) Under certain circumstances all advisory fees may be negotiable. In addition, John Mezzasalma may charge a sales commission pertaining to his insurance related investment recommendations only, i.e., life and disability insurance, and fixed annuities. Any sales commission or fee earned by John Mezzasalma is fully disclosed to the client. All commissions are computed according to a standard commission schedule. Finally, John Mezzasalma may charge a fee of approximately \$250 per hour for services rendered.

Our fees are billed in arrears at the end of each calendar quarter based upon the value (market value or fair market value in the absence of market value), of the client's account at the end of the previous quarter. Fees will be debited from the account in accordance with the client authorization in the Client Services Agreement.

A minimum of \$50,000 of assets under management is required for this service. This account

size may be negotiable under certain circumstances. Mezzasalma Advisors may group certain related client accounts for the purposes of achieving the minimum account size and determining the annualized fee.

**Limited Negotiability of Advisory Fees:** Although Mezzasalma Advisors has established the aforementioned fee schedule(s), we retain the discretion to negotiate alternative fees on a client-by-client basis. Client facts, circumstances and needs are considered in determining the fee schedule. These include the complexity of the client, assets to be placed under management, anticipated future additional assets; related accounts; portfolio style, account composition, reports, among other factors. The specific annual fee schedule is identified in the contract between the adviser and each client.

We may group certain related client accounts for the purposes of achieving the minimum account size requirements and determining the annualized fee.

Discounts, not generally available to our advisory clients, may be offered to family members and friends of associated persons of our firm.

## GENERAL INFORMATION

**Termination of the Advisory Relationship:** A client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days written notice. Upon termination of any account, any prepaid, unearned fees will be promptly refunded.

**Mutual Fund Fees:** All fees paid to Mezzasalma Advisors for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge. A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

**Wrap Fee Programs and Separately Managed Account Fees:** Clients participating in separately managed account programs may be charged various program fees in addition to the advisory fee charged by our firm. Such fees may include the investment advisory fees of the independent advisers, which may be charged as part of a wrap fee arrangement. In a wrap fee arrangement, clients pay a single fee for advisory, brokerage and custodial services. Client's portfolio transactions may be executed without commission charge in a wrap fee arrangement. In evaluating such an arrangement, the client should also consider that, depending upon the level of the wrap fee charged by the broker-dealer, the amount of portfolio activity in the client's account, and other factors, the wrap fee may or may not exceed the aggregate cost of such services if they were to be provided separately. We will review with clients any separate program fees that may be charged to clients.

**Additional Fees and Expenses:** In addition to our advisory fees, clients are also

responsible for the fees and expenses charged by custodians and imposed by broker dealers, including, but not limited to, any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the client's account(s). Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

**Grandfathering of Minimum Account Requirements:** Pre-existing advisory clients are subject to Mezzasalma Advisors' minimum account requirements and advisory fees in effect at the time the client entered into the advisory relationship. Therefore, our firm's minimum account requirements will differ among clients.

**ERISA Accounts:** Mezzasalma Advisors is deemed to be a fiduciary to advisory clients that are employee benefit plans or individual retirement accounts (IRAs) pursuant to the Employee Retirement Income and Securities Act ("ERISA"), and regulations under the Internal Revenue Code of 1986 (the "Code"), respectively. . As such, our firm is subject to specific duties and obligations under ERISA and the Internal Revenue Code that include among other things, restrictions concerning certain forms of compensation. To avoid engaging in prohibited transactions, Mezzasalma Advisors may only charge fees for investment advice about products for which our firm and/or our related persons do not receive any commissions or 12b-1 fees.

**Advisory Fees in General:** Clients should note that similar advisory services may (or may not) be available from other registered (or unregistered) investment advisers for similar or lower fees.

**Limited Prepayment of Fees:** Under no circumstances do we require or solicit payment of fees in excess of \$500 more than six months in advance of services rendered.

## **Item 6 Performance-Based Fees and Side-By-Side Management**

Mezzasalma Advisors does not charge performance-based fees.

## **Item 7 Types of Clients**

Mezzasalma Advisors provides advisory services to the following types of clients:

- Individuals (other than high net worth individuals)
- High net worth individuals

As previously disclosed in Item 5, our firm has established certain initial minimum account requirements, based on the nature of the service(s) being provided. For a more detailed understanding of those requirements, please review the disclosures provided in each applicable service.

## Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

### METHODS OF ANALYSIS

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

**Fundamental Analysis.** We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

**Technical Analysis.** We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may underperform regardless of market movement.

**Cyclical Analysis.** In this type of technical analysis, we measure the movements of a particular stock against the overall market in an attempt to predict the price movement of the security.

**Qualitative Analysis.** We subjectively evaluate non-quantifiable factors such as quality of management, labor relations, and strength of research and development factors not readily subject to measurement, and predict changes to share price based on that data.

A risk of using qualitative analysis is that our subjective judgment may prove incorrect.

**Asset Allocation.** Rather than focusing primarily on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance.

A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals.

**Mutual Fund and/or ETF Analysis.** We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in another fund(s) in the client's

portfolio. We also monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the holding(s) less suitable for the client's portfolio.

**Risks for all forms of analysis.** Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

## **INVESTMENT STRATEGIES**

We use the following strategy(ies) in managing client accounts, provided that such strategy(ies) are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

**Long-term purchases.** We purchase securities with the idea of holding them in the client's account for a year or longer. Typically we employ this strategy when:

- we believe the securities to be currently undervalued, and/or
- we want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

**Short-term purchases.** When utilizing this strategy, we purchase securities with the idea of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase.

**Trading.** We purchase securities with the idea of selling them very quickly (typically within 30 days or less). We do this in an attempt to take advantage of our predictions of brief price swings.

**Margin transactions.** We will purchase stocks for your portfolio with money borrowed from your brokerage account. This allows you to purchase more stock than you would be able to

with your available cash, and allows us to purchase stock without selling other holdings.

**Option writing.** We may use options as an investment strategy. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative, because it derives its value from an underlying asset.

The two types of options are calls and puts:

- A call gives us the right to buy an asset at a certain price within a specific period of time. We will buy a call if we have determined that the stock will increase substantially before the option expires.
- A put gives us the holder the right to sell an asset at a certain price within a specific period of time. We will buy a put if we have determined that the price of the stock will fall before the option expires.

We will use options to speculate on the possibility of a sharp price swing. We will also use options to "hedge" a purchase of the underlying security; in other words, we will use an option purchase to limit the potential upside and downside of a security we have purchased for your portfolio.

We use "covered calls", in which we sell an option on security you own. In this strategy, you receive a fee for making the option available, and the person purchasing the option has the right to buy the security from you at an agreed-upon price.

We use a "spreading strategy", in which we purchase two or more option contracts (for example, a call option that you buy and a call option that you sell) for the same underlying security. This effectively puts you on both sides of the market, but with the ability to vary price, time and other factors.

**Risk of Loss.** Securities investments are not guaranteed and you may lose money on your investments. We ask that you work with us to help us understand your tolerance for risk.

## **Item 9 Disciplinary Information**

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management.

Our firm and our management personnel have no reportable disciplinary events to disclose.

## **Item 10 Other Financial Industry Activities and Affiliations**

Our firm and our related persons are engaged in professions other than giving investment advice. For instance, our firm provides tax services to various clients. In addition, our firm

sells insurance products for sales commissions. Such activities are time consuming and may, at times, be rendered in connection with an advisory client's objectives. No advisor client is obligated, but may use CPA services of our firm.

Management personnel of our firm are also partners in the accounting firm of John D Mezzasalma, CPA, where they are individually licensed and practicing Certified Public Accountants providing accounting services for separate and typical compensation.

John D Mezzasalma, CPA typically recommends Mezzasalma Advisors to accounting clients in need of advisory services. Conversely, Mezzasalma Advisors typically recommends John D Mezzasalma, CPA to advisory clients in need of accounting services. Accounting services provided by John D Mezzasalma, CPA are separate and distinct from our advisory services, and are provided for separate and typical compensation. There are no referral fee arrangements between our firms for these recommendations. No Mezzasalma Advisors client is obligated to use John D Mezzasalma, CPA for any accounting services and conversely, no accounting client is obligated to use the advisory services provided by us. John D Mezzasalma, CPA's accounting services do not include the authority to sign checks or otherwise disburse funds on any of our advisory client's behalf.

These individuals will spend the majority of their time on their accounting practice.

## **Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

Mezzasalma Advisors and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

Mezzasalma Advisors' Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to [jdmezz@aol.com](mailto:jdmezz@aol.com), or by calling us at 732-842-1120.

Mezzasalma Advisors and individuals associated with our firm are prohibited from engaging

in principal transactions.

Mezzasalma Advisors and individuals associated with our firm are prohibited from engaging in agency cross transactions.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

We may aggregate our employee trades with client transactions where possible and when compliant with our duty to seek best execution for our clients. In these instances, participating clients will receive an average share price and transaction costs will be shared equally and on a pro-rata basis. In the instances where there is a partial fill of a particular batched order, we will allocate all purchases pro-rata, with each account paying the average price. Our employee accounts will be excluded in the pro-rata allocation.

As these situations represent actual or potential conflicts of interest to our clients, we have established the following policies and procedures for implementing our firm's Code of Ethics, to ensure our firm complies with its regulatory obligations and provides our clients and potential clients with full and fair disclosure of such conflicts of interest:

1. No principal or employee of our firm may put his or her own interest above the interest of an advisory client.
2. No principal or employee of our firm may buy or sell securities for their personal portfolio(s) where their decision is a result of information received as a result of his or her employment unless the information is also available to the investing public.
3. It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account. This prevents such employees from benefiting from transactions placed on behalf of advisory accounts.
4. Our firm requires prior approval for any IPO or private placement investments by related persons of the firm.
5. We maintain a list of all reportable securities holdings for our firm and anyone associated with this advisory practice that has access to advisory recommendations ("access

person"). These holdings are reviewed on a regular basis by our firm's Chief Compliance Officer or his/her designee.

6. We have established procedures for the maintenance of all required books and records.
7. All clients are fully informed that related persons may receive separate commission compensation when effecting transactions during the implementation process.
8. Clients can decline to implement any advice rendered, except in situations where our firm is granted discretionary authority.
9. All of our principals and employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
10. We require delivery and acknowledgement of the Code of Ethics by each supervised person of our firm.
11. We have established policies requiring the reporting of Code of Ethics violations to our senior management.
12. Any individual who violates any of the above restrictions may be subject to termination.

## **Item 12 Brokerage Practices**

As our firm does not have the discretionary authority to determine the broker-dealer to be used or the commission rates to be paid, clients must direct Mezzasalma Advisors as to the broker-dealer to be used.

Mezzasalma Advisors requests that clients direct us to place trades through TD Ameritrade. Mezzasalma Advisors has evaluated TD Ameritrade and believes that it will provide our clients with a blend of execution services, commission costs and professionalism that will assist our firm to meet our fiduciary obligations to clients.

We reserve the right to decline acceptance of any client account for which the client directs the use of a broker other than TD Ameritrade if we believe that this choice would hinder our fiduciary duty to the client and/or our ability to service the account. In directing the use of TD Ameritrade, it should be understood that Mezzasalma Advisors will not have authority to negotiate commissions or to necessarily obtain volume discounts, and best execution may not be achieved. In addition, a disparity in commission charges may exist between the commissions charged to the client and those charged to other clients (who may direct the use of another broker).

Clients should note, while Mezzasalma Advisors has a reasonable belief that TD Ameritrade is able to obtain best execution and competitive prices, our firm will not be independently seeking best execution price capability through other brokers. Not all advisers require clients

to direct it to use a particular broker-dealer.

For clients in need of brokerage or custodial services, and depending on client circumstances and needs, we may recommend the use of one of several brokers (including, but not limited to TD Ameritrade), provided that such recommendation is consistent with our firm's fiduciary duty to the client. Our clients must evaluate these brokers before opening an account. The factors considered by Mezzasalma Advisors when making these recommendations are the broker's ability to provide professional services, our experience with the broker, the broker's reputation, the broker's quality of execution services and costs of such services, among other factors. Clients are not under any obligation to effect trades through any recommended broker.

Mezzasalma Advisors will block trades where possible and when advantageous to clients. This blocking of trades permits the trading of aggregate blocks of securities composed of assets from multiple client accounts, so long as transaction costs are shared equally and on a pro-rated basis between all accounts included in any such block.

Block trading may allow us to execute equity trades in a timelier, more equitable manner, at an average share price. Mezzasalma Advisors will typically aggregate trades among clients whose accounts can be traded at a given broker, and generally will rotate or vary the order of brokers through which it places trades for clients on any particular day. Mezzasalma Advisors' block trading policy and procedures are as follows:

- 1) Transactions for any client account may not be aggregated for execution if the practice is prohibited by or inconsistent with the client's advisory agreement with Mezzasalma Advisors, or our firm's order allocation policy.
- 2) The trading desk in concert with the portfolio manager must determine that the purchase or sale of the particular security involved is appropriate for the client and consistent with the client's investment objectives and with any investment guidelines or restrictions applicable to the client's account.
- 3) The portfolio manager must reasonably believe that the order aggregation will benefit, and will enable Mezzasalma Advisors to seek best execution for each client participating in the aggregated order. This requires a good faith judgment at the time the order is placed for the execution. It does not mean that the determination made in advance of the transaction must always prove to have been correct in the light of a "20-20 hindsight" perspective. Best execution includes the duty to seek the best quality of execution, as well as the best net price.
- 4) Prior to entry of an aggregated order, a written order ticket must be completed which identifies each client account participating in the order and the proposed allocation of the order, upon completion, to those clients.
- 5) If the order cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated pro rata among the participating client accounts in accordance with the initial order ticket or other written statement of allocation. However, adjustments to this pro rata allocation may be made to participating client accounts in accordance with the initial order ticket or other written

statement of allocation. Furthermore, adjustments to this pro rata allocation may be made to avoid having odd amounts of shares held in any client account, or to avoid excessive ticket charges in smaller accounts.

6) Generally, each client that participates in the aggregated order must do so at the average price for all separate transactions made to fill the order, and must share in the commissions on a pro rata basis in proportion to the client's participation. Under the client's agreement with the custodian/broker, transaction costs may be based on the number of shares traded for each client.

7) If the order will be allocated in a manner other than that stated in the initial statement of allocation, a written explanation of the change must be provided to and approved by the Chief Compliance Officer no later than the morning following the execution of the aggregate trade.

8) Mezzasalma Advisors' client account records separately reflect, for each account in which the aggregated transaction occurred, the securities which are held by, and bought and sold for, that account.

9) Funds and securities for aggregated orders are clearly identified on Mezzasalma Advisors' records and to the broker-dealers or other intermediaries handling the transactions, by the appropriate account numbers for each participating client.

10) No client or account will be favored over another.

Mezzasalma Advisors participates in the institutional customer program offered by TD Ameritrade Institutional. TD Ameritrade Institutional is a division of TD Ameritrade Inc., member SIPC ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade offers services to independent investment advisers which include custody of securities, trade execution, clearance and settlement of transactions. Mezzasalma Advisors receives some benefits from TD Ameritrade through our participation in the program.

Mezzasalma Advisors participates in TD Ameritrade's Institutional customer program and we may recommend TD Ameritrade to our clients for custody and brokerage services. TD Ameritrade Institutional is a division of TD Ameritrade Inc., member SIPC ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member. There is no direct link between our firm's participation in the program and the investment advice we give to our clients, although we receive economic benefits through our participation in the program that are typically not available to TD Ameritrade retail investors.

These benefits include the following products and services (provided without cost or at a discount): Duplicate client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving adviser participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts); the ability to have advisory fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; access to mutual funds with no transaction fees and to certain Institutional money managers; and discounts on compliance, marketing, research,

technology, and practice management products or services provided to Mezzasalma Advisors by third party vendors.

Some of the products and services made available by TD Ameritrade through the program may benefit Mezzasalma Advisors but may not benefit our client accounts. These products or services may assist us in managing and administering client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help us manage and further develop our business enterprise. The benefits received by Mezzasalma Advisors through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. Clients should be aware, however, that the receipt of economic benefits by Mezzasalma Advisors or our related persons in and of itself creates a potential conflict of interest and may indirectly influence our recommendation of TD Ameritrade for custody and brokerage services.

Mezzasalma Advisors' receipt of the products and services does not diminish our duty to act in the best interests of our clients, including seeking best execution of trades for client accounts.

### **Item 13 Review of Accounts**

#### **INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT**

**REVIEWS:** While the underlying securities within Individual Portfolio Management Services accounts are continually monitored, these accounts are reviewed at least quarterly. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment.

These accounts are reviewed by: John Mezzasalma

**REPORTS:** In addition to the monthly statements and confirmations of transactions that clients receive from their broker-dealer, we provide annual reports summarizing account performance, balances and holdings.

### **Item 14 Client Referrals and Other Compensation**

It is Mezzasalma Advisors' policy not to engage solicitors or to pay related or non-related persons for referring potential clients to our firm.

It is Mezzasalma Advisors' policy not to accept or allow our related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services we provide to our clients.

## **Item 15 Custody**

We previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure that our firm directly debits advisory fees from client accounts.

As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting period.

Because the custodian does not calculate the amount of the fee to be deducted, it is important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

Our firm does not have actual or constructive custody of client accounts.

## **Item 16 Investment Discretion**

Clients may hire us to provide discretionary asset management services, in which case we place trades in a client's account without contacting the client prior to each trade to obtain the client's permission.

Our discretionary authority includes the ability to do the following without contacting the client:

- determine the security to buy or sell; and/or
- determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with our firm, and may limit this authority by giving us written instructions. Clients may also change/amend such limitations by once again providing us with written instructions.

## **Item 17 Voting Client Securities**

As a matter of firm policy, we do not vote proxies on behalf of clients. Therefore, although our firm may provide investment advisory services relative to client investment assets, clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets. Clients are responsible for instructing each custodian of the assets, to forward to the client copies of all proxies and shareholder communications relating to the client's investment assets.

We may provide clients with consulting assistance regarding proxy issues if they contact us with questions at our principal place of business.

## **Item 18 Financial Information**

As an advisory firm that maintains discretionary authority for client accounts, we are also required to disclose any financial condition that is reasonable likely to impair our ability to meet our contractual obligations. Mezzasalma Advisors has no additional financial circumstances to report.

Under no circumstances do we require or solicit payment of fees in excess of \$500 per client more than six months in advance of services rendered. Therefore, we are not required to include a financial statement.

Mezzasalma Advisors has not been the subject of a bankruptcy petition at any time during the past ten years.

## **Item 19 Requirements for State-Registered Advisers**

The following individuals are the principal executive officers and management persons of Mezzasalma Advisors:

Information regarding the formal education and business background for each of these individuals is as follows:

John Mezzasalma, born in 1954, graduated from Brooklyn College with a BS in Accounting. He has been a CPA since 1980 and a CFP® since 1992. Mr. Mezzasalma has been self-employed in the tax/financial planning industry since 1984.

In addition to the information provided in Item 10, "Other Financial Industry Activities and Affiliations", Mezzasalma Advisors and Mr. Mezzasalma are actively engaged in providing the following non-advisory services:

Tax and accounting services to various clients, which comprises approximately 60% of our time. No advisor client is obligated, but may use CPA services of our firm.

Mr. Mezzasalma is a registered insurance broker with Massachusetts Mutual Life Insurance Company and other insurance companies and as such sells insurance products. As such, Mr. Mezzasalma will receive separate yet typical compensation for such transactions. No advisor client is obligated to use Mr. Mezzasalma for any insurance related transactions in this capacity as a Broker. This comprises about 5% of our time.

We are required to disclose all material facts regarding certain legal or disciplinary events pertaining to arbitration awards or other civil, regulatory or administrative proceedings in which our firm or management personnel were found liable or against whom an award was granted.

Our firm and our management personnel have no reportable disciplinary events to disclose.

As previously disclosed in "Other Financial Industry Activities and Affiliations" (Item 10), neither Mezzasalma Advisors nor our management personnel have a relationship or arrangement with any issuer of securities.
